

HANOI UNIVERSITY OF SCIENCE AND TECHNOLOGY

GRADUATION THESIS

Optimizing Automatic Heuristic Generation with Large Language Models for Budget-Constrained Multi-Objective Optimization Using Bandit Algorithms

Trn Quang Huy

Huy.TQ240825E@sis.hust.edu.vn

Program: Generative Artificial Intelligence Engineer

Supervisor: Dr. T Duy Hoing

Department: Computer Science

School: School of Information and Communications Technology

HANOI, 06/2026
